Message from the President

Dear Members of OGSHK,

When we are approaching the end of the year, we must take stock of what happened in the past year and start planning for the next year. The year of 2006 is of particular importance to the OGSHK as we are celebrating our 45th Anniversary (1961-2006). In fact in the year of 2001 when we were having the 40th Anniversary we have been thinking of organizing some large scale event like celebration dinner but it was finally withheld because of the lack of support and poor economy at that time. This year we are fortunate to have the enthusiastic support from our members, past presidents, past office bearers and sponsors who contribute a lot to the 45th Anniversary celebration activities in particular the 45th Anniversary dinner and the 45th Anniversary brochure.

On the evening of 12th September 2006, the 45th Anniversary dinner was held in the Ballroom of Sheraton Hotel. For those members and guests who have attended this event will definitely agree with me that the atmosphere was very joyful and reminiscent of the past. Prof. Lee Kin Hung who was office bearer of the OGSHK for more than a decade told us the history and origin of OGSHK followed

Cake Cutting Ceremony by Past-Presidents of OGSHK

OGSHK Office Bearer and Invited Guests

Prof. K H Lee, Speaker and Foundation Member of OGSHK with Dr. S K Lam, President

Dr. Lawrence Tang, Past-President of OGSHK with Dr. W H Lee, Vice-President, HK Society of Neonatal Medicine

From Left: Dr. Sidney Au Yeung, Dr. Robert Law, Dr. Catherine Ong, Dr. S K Lam, Dr. Christina Chow, Dr. S G Chua, Prof. K H Lee, Prof. Grace Tang

Past-Presidents and Past Council Members of OGSHK

Current Council Members (2005-2007)

Dr. Wong Keong, President of Macao Association of O&G

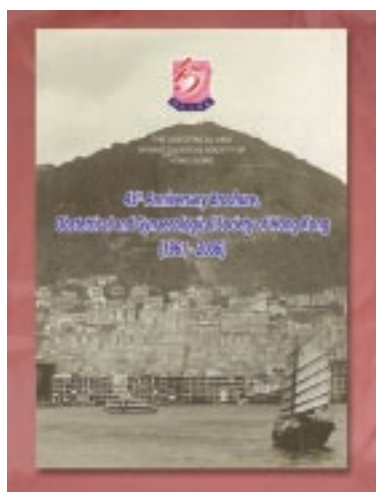

Dr. S K Lam, Dr. Pamela Leung and Miss Ho (Honorary Auditor of OGSHK)

Senior Members of OGSHK (from left) Dr. WF Pau, Dr. L C Ho, Dr. H Abdullah

by a description of his enjoyable life in Tsan Yuk Hospital in the 1960's. To illustrate many of his unheard inside stories, he showed us really old photos with many unfamiliar faces to us (e.g. the young Prof. L C Wong). I am sure that Prof. Lee's talk was most interesting and enlightening to all our members especially those young trainees. We were also honoured to have the presence of the past presidents including Prof. K H Lee, Dr. S G Chua, Dr. Robert Law, Dr. L C Ho, Dr. Lawrence Tang, Dr. Dominic Li (Dr. L Mullins, Dr. Enid Chan and Dr. Vivian Wong unfortunately were not available). Many past office bearers including Dr. Pamela Leung, Dr. Joseph Woo, Dr. Chu Wai Yee, Dr. Abdullah were also present. Dr. Christina Chow, being the foundation Council Member of OGSHK in 1961, was invited as our guest of honour and she shared with us all the difficult moments at the very beginning of the Society. The dinner was very successful and well organized and we are particularly indebted to the sponsors including the main sponsor Mead Johnson Nutritionals and other companies, the help of the current council members, the two "golden" MC Dr. Robert Law and Dr. Ben Chan and above all the support of all our members throughout these 45 years. I hope the OGSHK can celebrate its 50th Anniversary in 2011 with similar success.

Brochure of the OGSHK 45th Anniversary

To commemorate the 45th Anniversary, we have published a special booklet called the "45th Anniversary brochure of OGSHK" and a souvenir to all our members. The souvenir was a 512 MB USB drive with the OGSHK 45th Anniversary logo printed on one side. Both the anniversary booklet and the souvenir should be given to each member and guest at the dinner on 12th September 2006. For those members who were not present at the dinner, we have arranged sending both the brochure and the souvenir directly to your registered

Souvenir for the 45th Anniversary of OGSHK

address with the Society about a month ago. If you still have not received both, please contact the Honorary Secretary Dr. Au Yeung Kam Chuen by email (sidneyaueung@gmail.com). Some of the items sent out were returned by the Post Office because of incorrect address, so please give us the up to date address if possible. A video was taken during the dinner on 12th September 2006 and a copy was enclosed herein for your own viewing and collection (this should be interesting to those who have not attended the event).

On the 14th October 2006, the Annual Perinatal Symposium was held in Sheraton Hotel. In fact this was the Sixth Perinatal Symposium held under the auspice of the Hong Kong Perinatal Chapter. There were over 300 doctors and nurses attending this meeting and the topics presented were very interesting and useful for our daily practice. As we are paying more attention to the psychosocial care of the patients, we have three topics touching on domestic violence and support of at risk families in the first session followed by three clinical topics in the second session. One of our council member Dr. T Y Leung who helped a lot in the organization of this meeting presented a report on page 7.

A large delegation of public and private doctors from Hong Kong attended the XVIII FIGO meeting in Kuala Lumpur from 5th to 10th November 2006. We still vividly remembered six years back we lost our bid to KL in Washington DC for hosting the FIGO meeting in 2006. There was around 40 doctors from public hospitals and more than ten private doctors attending this year meeting and enjoying both the academic programme and the local hospitality. We were able to meeting a lot of old friends from Hong Kong like Prof. Chan Fung Yee, Dr. Shell Wong, presidents of other O&G societies and colleagues from China like Prof. Shen Keng etc. At the FIGO meeting, the new FIGO cabinet was elected with the Dr. Dorothy Shaw (Canada) as President,

President Chairing a Meeting with Prof. Templeton, President RCOG

Prof. Ngan and Dr. Margaret Cheung at Her Plenary Lecture

Prof. Gamal Serour (Egypt) as President-Elect, Dr. Shahida Zaidi (Pakistan) as Vice President, Prof. Ian Fraser (Australia) as Honorary Secretary, Assoc. Prof. Jerker Liljestrand (Sweden) as Honorary Treasurer. The term of office is from 2006 to 2009. The next FIGO meeting will be held in South Africa in 2009 and the 2012 meeting will be held in Rome, Italy. At the meeting, many Hong Kong delegates were invited to deliver plenary lectures like Prof. P C Ho and Prof. Hextan Ngan, concurrent sessions and oral presentation. We were also actively involved as session chairman or co-chairman.

XVIII FIGO Meeting

On behalf of OGSHK, I and Dr. Au Yeung attended a special lecture presented by Prof. K H Lee in the Hong Kong Museum of Medical Science on 4th November 2006. The topic was "Why they are obsolete". "They" referred to the obsolete obstetrical instruments kept in the Hong Kong Museum of Medical Science including destructive instruments like decapitation hooks, saw and Kielland forceps donated by Tsan Yuk Hospital (I may be wrong as some obstetricians in Hong Kong may still be using Kielland?). I really encourage all our members to visit the Museum as there are many other historical documents and equipments of other specialties being kept there.

On the 24th November 2006, I attended the Hong Kong Midwives Association annual dinner in City Hall.

Some of our members are also involved actively in public education. Dr. Kan Ka Yan and Dr. T K Lee presented lectures to public on women's health on behalf of OGSHK. Special thanks to them for sacrificing their own precious time.

The above list referred to what we have performed in the year of 2006. To look forward may I highlight a few points:

- the list of meeting under preparation by OGSHK in 2007 is shown in the Honorary Secretary Report.
- the second Asian Pacific Congress on Controversies in O&G Infertility is being held in Shanghai 8th - 11th November 2007. OGSHK is one of the supporting organizations. Drs. Au Yeung Kam Chuen, T Y Leung, K Y Leung and myself were invited to join the Regional Scientific Advisory Board. Further information is available at the following website: www.comtecmed.com/cogi/china. Members are encouraged to attend this meeting and have a look at the vibrant city of Shanghai.
- massive influx of mainland mothers and the manpower crisis (doctor and midwife) have to be discussed and dealt with immediately.
- closer collaboration with other O&G societies in the region like Macau, China, Taiwan. There is a preliminary plan to have a have a meeting in Macau at the end of year involving China, Macau, Taiwan and Hong Kong.

Despite all these difficulties, may I wish you and your family a Merry Christmas and Happy New Year. Hope the best will come in the next year.

Message from the Vice-President

About The Society's Website

It is a few months since the launching of the new appearance of the website, members who had visited the website are welcome to give their feedbacks. For those who has not visited it, please take a look at www.ogshk.org and we are extremely happy to have your comments.

We would try to announce our society's activity in the website so that it is more efficient and faster. Sponsorship announcement would also be put on the welcome page whenever available.

Besides, if we can obtain our speakers' consent, we would put the content of their lecture on the website so that those who have attended the lecture can refer back afterwards, and also those who haven't, can also have an idea about the lecture.

Thanks to our Journal's editor, Dr. K Y Leung, we are now trying to put the contents/abstract of our Journal past issues on the web so that members who do not have a hard copy can also access the articles.

In overseas websites, there is a lot of information for patients. However, most of them are in English. Therefore, we are also trying to search for these information about common O&G problems in Chinese. If members come across good material, please give us the link so that we can either put it on our web, or paste a link to the original source.

Dr. May Chan
Vice-President

Message from the Honorary Treasurer

The Society has continued to prosper with a healthy financial status. Thanks to all members for your passion and unfailing support. Please continue to do so by your timely payment of annual subscriptions. You can send your cheque for the 2007 subscription (HK\$400 except life members) directly to my office. Also I will be sending out reminders soon in 2007 or you can pay at that time.

Dr. Mok Ka Ming
Honorary Treasurer, OGS HK

United Christian Hospital
Hip Woo Street, Kwun Tong, Kowloon

Message from the Honorary Secretary

I need to inform you that we have some problem in providing CNE points to our associate members (nurses) recently. For the past academic meetings, we will apply to the Institute of Advanced Nursing Studies (IANS) of Hospital Authority for the accreditation of CNE points and they will reply formally the point allocated e.g. 1 or 1.5 or 2 CNE points. We will usually put the number of CNE point in our invitation card and poster and give each associate member a CNE attendance certificate at the meeting. The member will use our attendance certificate to claim the CNE point at the working hospital. This has been working smoothly for few years without problem. Recently HA IANS will no longer provide the CNE point accreditation and OGSHK being the organizer of these academic meetings are required to register formally with the Hong Kong Nursing Council for the provision and allocation of CNE point (as an Accredited CNE Provider). Likewise for the midwives they have to collect PEM point (post-registration education in midwifery) point and OGSHK has to apply to the Hong Kong Midwives Council. As the process of application is quite complicated, it is unlikely that we can provide CNE or PEM point to our associate members for the few next meetings. We will try our best to apply to both Councils for the CNE and PEM accreditation.

Honorary Secretary

Report on the Perinatal Symposium

The 6th Perinatal Symposium, jointly organized by Hong Kong Society of Neonatal Medicine and Obstetrical and Gynaecological Society of Hong Kong, was successfully held on 14th October 2006 in Sheraton Hotel. Over 300 professionals participated, including doctors from Mainland China and Macau.

The theme of the first half of the Symposium was domestic violence which was shown to be a very common social problem in Hong Kong. Therefore, Dr. Wing Cheong Leung advocated a screening program of this problem during antenatal visits. Prof. Agnes Tiwari shared how to empower the battered wives to overcome the adverse situation. Dr. Patrick Ip described the Comprehensive Child Development Service to enhance early child development and their family well-being among high-risk families.

Speakers and Chairman for The First Session

Speakers and Chairman for The Second Session

Office Bearers of The HK Society of Neonatal Medicine having Good Relationship with OGSHK

Delegates from China Attending This Symposium

In the second half of the Symposium, the focus moved to fetal and neonatal disorders. Prof. Tze Kin Lau updated the audience on the recent advances in fetal surgical treatment and shared his experience in laser therapy for twin-twin-transfusion syndrome. Prof. Tai Fai Fok reported his research on the effects of different kinds of traditional Chinese medicine on G6PD deficiency, while Prof. Nelson Tang proposed a new neonatal screening program for inherited metabolic diseases using tandem MS technology.

After their talks, the audience enjoyed the discussion, as well as the buffet sponsored by Mead Johnson Nutritionals which fully supported in the organization of the Symposium.

Report on the HKJGOM from the Chief Editor

With the enormous support by the Editorial Board of the HKJGOM, OGSHK, Editors, and authors, the 2005 issue has been published in September, 2006. We have changed the front cover and layout of this journal. The articles inside, being contributed by O&G doctors, midwives and psychologists, carries local significance which are very interesting. This time, we have distributed more than 1500 copies of the journal to all the members, authors, sponsors, public and university libraries. The journal, including this issue and back issues, can also be accessed on our Society web.

We plan to publish the next issue in February 2007. Doctors (specialists or trainees), nurses, and other healthcare professionals are invited to submit manuscripts which can be original articles, update articles, case reports or articles on continuous medical/nursing education. To facilitate the submission and review process, you may simply send us an email with attachment files (further detail available at society website www.ogshk.org). We will promptly process your manuscript. Please support your local journal.

Merry Christmas and Happy New Year

An Useful Textbook on PPH

At the FIGO meeting, "A Textbook on Postpartum Haemorrhage" was distributed free to attendants. This is the very first comprehensive textbook on the management of PPH, one of the leading causes of maternal mortality in the world. It is only now distributed free to underdeveloped countries and those members in Hong Kong can buy through the following website (www.sapienspublishing.com, cost 39 pounds plus postage 12 pound) or download the whole textbook through the web (the download is completely free). Please encourage your hospital or library to buy one or more copies and put them either in your department and/or the labour ward for easy reference. It also come with posters on the management of PPH and the application of B-Lynch stitches. The chief editor of the book is Prof. Christopher B-Lynch which is the inventor of the B-Lynch stitches.

This Newsletter is Generously Supported by Mead Johnson Nutritionals
